

ApiCandy

Fondant sugar for honey bees

Technical Data Sheet

Balanced and highly palatable product, consisting of raw materials of European origin, non-GMO, without additives or preservatives. Worked at low temperatures and made up of fine granulated sugar (sucrose), fructose / glucose syrup (subjected to an enzymatic inversion process) and water. Excellent as a support feed to stimulate the family to resume the production season, its use is essential in periods of nectar deficiency and in cases of adverse weather conditions.

Ingredients:

Beetroot sugar (sucrose)
Beet sugar syrup (Fructose/glucose)
Water

Physical parameters:

Solid state
Consistency: pasty
Color: dull white
Odor: none
Taste: sweet, typical of sugar
Solubility: totally soluble in water, clear and colorless solution.

Chemical parameters:

Humidity	3%
pH	5,5
HMF (hydroxymethylfurfural)	<5 mg/kg
Crude Fats	0 g/100g
Crude fiber	0 g/100g
Crude protein	0 g/100g
Crude ash	0 g/100g
Non-nitrogen extractives*	97%
- Fructose	7,5 g/100g
- Glucose	8 g/100g
- Sucrose	>60 g/100g
- Maltose	0 g/100g
- Lactose	0 g/100g
Glucose/fructose ratio	≥1
Salt	0,03%

*In this type of formulation they are intended exclusively as carbohydrates.

Product Validity:

The product maintains its characteristics unchanged for at least 24 months from the production date if stored in original closed packages, away from direct sunlight, in a covered warehouse and at room temperature.

No genetically modified organisms (GMO free):

This sugar is derived exclusively from sugar free GMO which has not undergone any kind of genetic engineering treatment, in reference to the EC Regulations 1829/2003 and 1830/2003.

Packs:

The product is packaged in:

Clear plastic bags of 1 kg within corrugated cardboard (carton of 12 pieces).

Clear plastic bags of 2 kg within corrugated cardboard (carton of 6 pieces).
